

# UBUNTU: Configurazione "eduroam" per utenti unitn

- Selezionare "eduroam" dalle connessioni disponibili

- configurare la rete come qui sotto e compilare username e password con le proprie credenziali di ateneo

**Wireless Network Authentication Required**

 **Authentication required by wireless network**

Passwords or encryption keys are required to access the wireless network 'eduroam'.

Wireless security: WPA & WPA2 Enterprise ▼

Authentication: Protected EAP (PEAP) ▼

Anonymous identity:

CA certificate: (None) 

PEAP version: Automatic ▼

Inner authentication: MSCHAPv2 ▼

Username: nome.cognome@unitn.it

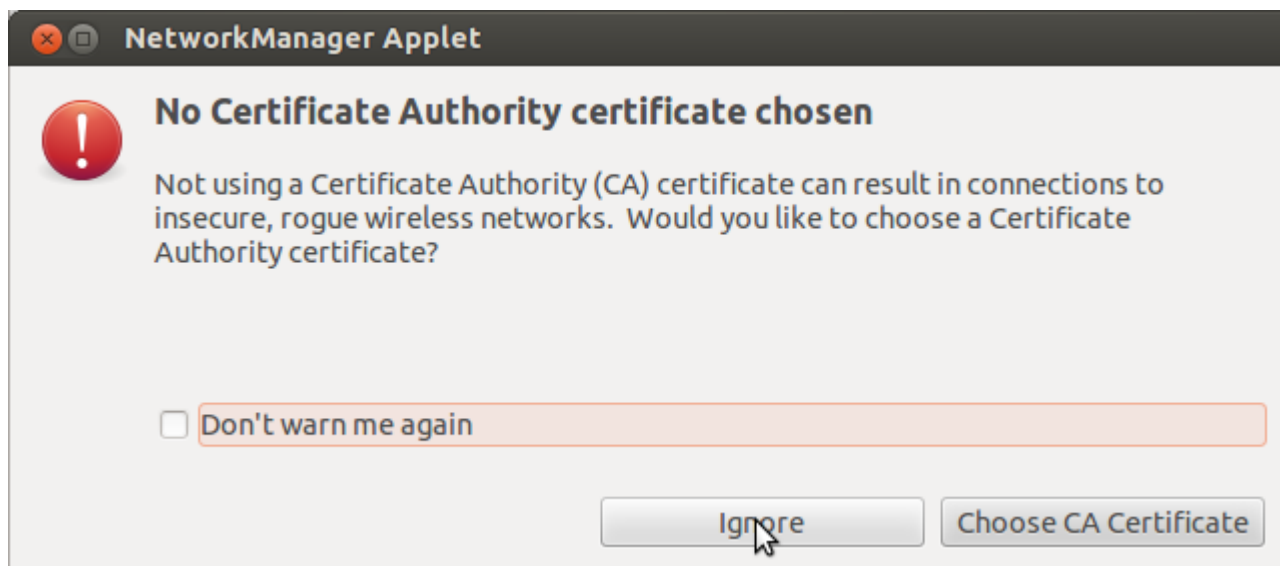

Password:

☐ Ask for this password every time

☐ Show password

Cancel Connect

- al warning sul certificato, spuntare “Don't warn me again” e cliccare su “Ignore”

**NetworkManager Applet**

 **No Certificate Authority certificate chosen**

Not using a Certificate Authority (CA) certificate can result in connections to insecure, rogue wireless networks. Would you like to choose a Certificate Authority certificate?

☐ Don't warn me again

Ignore Choose CA Certificate

- La connessione è stabilita
