

# 802.1x Mac-Lion

After connecting the network cable, at request insert the University credentials

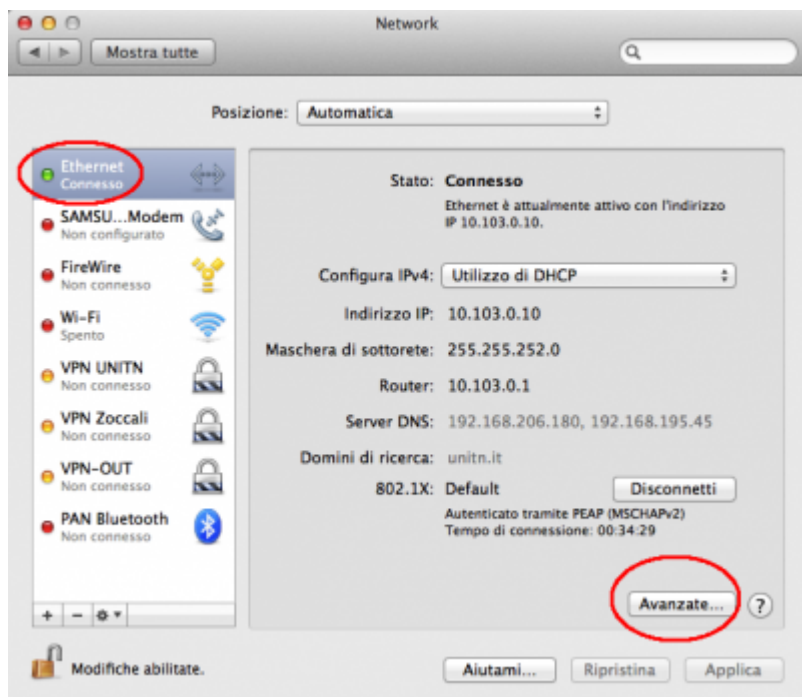

In the event that the credentials are not recognized you will be automatically redirected to a Captive Portal authentication

## Problemi

Nel caso non venisse presentata la maschera di richiesta autenticazione, procedere come descritto

Aprire **Preferenze di Sistema...** e cliccare su **Network**, quindi dopo aver selezionato l'interfaccia appropriata cliccare su **Avanzate...** e verificare che sia attivata l'opzione **Abilita connessione automatica**.
